A National Wildfire Prevention and Education Team has begun assisting the North Carolina Forest Service and the U.S. National Forests in North Carolina conducting wildfire prevention awareness activities

In anticipation of the forecasted weekend wind event and its potential effect on the wildfires, the team is asking for your help. If you would, please forward the following information to any fire department including volunteer departments and/or any cooperators, especially those in **high risk area**. Please ask to post on their web sites, Facebook and/or any social media venue.

Ready, Set, Go! The program helps residents be Ready with preparedness understanding, be Set with situational awareness when fire threatens, and to Go, acting early when a fire starts:

Wildfires Near Me Is a beta web application that focuses on keeping you informed about wildfires in your area. You tell the app all the places you care about and you will receive an email or text message when a fire is possibly threatening that location: <https://wildfiresnearme.wfmrda.com/>

Our primary goal is safety – firefighters and the public. Please know, the prevention team’s intent is to lessen your burden during this historic wildfire season. If we may be of any assistance, please don’t hesitate to contact us.
