BLUEBERRIES PRICE \$9.00 each

Rabbiteye varieties. 1-gallon pots)

PREMIER: Mid-season, large firm berries, very good flavor, and the berries store well. Bright green foliage makes it good for ornamental use.

FIFBLUE: Mid-to late-season, large, firm berries, light blue in color and quite flavorful. Popular for its appearance and productivity.

POWDER BLUE: Mid-season, darker blue berries, sweet flavor, resistant to cracking.

CLIMAX: Small-medium size berries. Good color and flavor. Ripens late May-early June.

DNSLOW: : Mid-to late-season. Vigorous, Semi-upright fruit. Self-pollinating.

BLACKBERRIES PRICE \$7.00 each

All are thornless and upright; 1-gallon pots.)

MON: Large uniform fruit, great sweet flavor with small seeds. Excellent quality. Mid-late season. First thornless blackberry, just released from NC State.

MUCHITA: Sweet, cone-shaped large berry. Ripens late (mid-June). High yielding. Excellent flavor.

PAPACHE: Large size fruit, excellent quality, ripens late (mid-June). Cold hearty and high yielding.

RASPBERRIES PRICE \$7.00 each

Varieties are thorny. 1-gallon pots.)

HERITAGE: Most popular variety. Dark red berries. Large crops of large sweet berries. Ripens July-Sept.

CAROLINE RED: New! Excellent flavor. Produces heavy crops of large raspberries. Ripens June and September. Very vigorous and tolerant of root rot. Self-pollinating.

BUNCH GRAPES PRICE \$8.00 each

(1-gallon pots.) Seedless varieties.

JUPITER Reddish-blue color, very large and semi-crisp fruit. Ripens in August. Great for fresh eating.

NEPTUNE: Large yellow-green fruit. Juicy and highly flavorful. Ripens in September. Resists cracking. Disease resistant and cold hardy.

MUSCADINES PRICE \$8.00 each

(Potted in 1-gallon pots.)

LANE: Black self fertile. Medium to large clusters. Ripens early. Crisp skin and firm pulp. Very sweet (19% sugar)

SCUPPERNONG: Bronze, female variety. Will need a pollinator. Medium size fruit. Ripens mid season. Vigorous and cold hardy. (17% sugar)

STRAWBERRIES PRICE \$8.00 for 25

EARLIGLOW: Early-season. Medium berry. Excellent for fresh eating and freezing due to its sweet berries and uniform flavor. Recommended for beginners.

CAVENDISH: Excellent flavor, large attractive fruit, high yielding. Cold hardy and good quality fruit.

****Special items available upon request.**

APPLE TREES PRICE \$16.00 each

(All trees are bare root.)

YELLOW DELICIOUS: Mid to late season apple, yellow-green to light yellow fruit color, extra juicy, crisp, and sweet! Used either fresh or for cooking, self-pollinating.

GALA: Yellow-orange to red fruit used for fresh eating and blooms early to mid-season. Will need a pollinator.

FIG TREES PRICE \$16.00 each

BROWN TURKEY: Old variety that is still one of the best eating figs. Very heavy producer, medium to large bell shaped figs. Flesh is very sweet and tender and great to eat right off the tree. Heavy bearer, ripens mid-season up until late.

CELESTE: Very sweet flesh, rich honey flavor, often called the “sugar fig”. Medium sized figs even in unfavorable weather. Very widely planted variety. Cold hardy. Excellent for fig preserves and also for dried fruit.

RUTHERFORD COUNTY 4-H

4-H is an educational program for both boys and girls, ages 5-18. Exciting club and special interest programs along with other activities and events support the “learning by doing” concept of 4-H.

The four H's stand for HEAD, HEART, HANDS, and HEALTH. Subject matter and life skills are learned by the 4-H'ers through 4-H projects and activities, ranging from animal projects to canning projects to photography and electricity. For more information on 4-H in Rutherford County, contact the Cooperative Extension Center at 287-6010.
